Lunas Robotics is currently looking for members, both full-time and part-time. You can choose based on your availability. Think you won't have space on your schedule but are interested in joining? That's alright! We are very flexible with other clubs, extracurricular, or activities you may have.

What does Lunas Robotics do exactly? We are made up of different subgroups: Building, Documenting, and Programming Teams, each contributing differently to the construction of the robot with help from mentors.

If you enjoy hands on projects, working with machines, tools, and creating blueprints, build team is for you. If your thing is more coding and wiring, you should consider the programming team. Or perhaps you enjoy photography, video editing, and marketing, then the documenting team is waiting for you. **LITTLE TO NO EXPERIENCE IS NECESSARY.**

By joining, you could get to travel and participate in FIRST Robotics Competition (FRC) Regionals on the Mainland and Hawaii, as well as get to meet new people from different states and countries while visiting new places!

If you are interested or have any questions, join us at lunch on May 22nd at Mr. Luckey's room, next to the auto shop. Or contact us at lunas3882@gmail.com. Please check our video at the end of morning broadcast tomorrow
